Stefan Sanderling Wins Bruckner Prize

*He will receive the Joseph Kilenyi Medal of Honor
at the conclusion of today's concert.*

“What struck the Bruckner Society’s Board of Directors was the fact that Sanderling’s series of Rosary Cathedral concerts was quickly evolving into a complete Bruckner cycle. Extensive cycles of Bruckner symphonies are rarely done – especially in the United States. As far as we know, this has only happened in large cities such as Chicago and New York and most recently in Cleveland. So we were delighted as the Sanderling / Toledo cycle grew and there was no doubt in our minds that Stefan Sanderling was deserving of our recognition.” -John Berky, Bruckner Society of America
